

## Makwa-Cahill Fabrication

Owen Sound, ON

Makwa-Cahill, a division of The Cahill Group, specializes in piping, structural, N285 & B51 pressure boundary welding, and valve repair services.

Makwa and Cahill have joined forces to create Makwa-Cahill LP, a fully qualified indigenous fabrication company. Focusing on industrial fabrication and other strategic work scope opportunities in the energy sector, Makwa-Cahill will work closely with clients in Ontario to create meaningful opportunities for development and employment of qualified trade and professional resources while directly stimulating the local and Provincial economy.

### Valve Repair Capabilities:

- Spray Welding
- Actuator Overhauls
- Lapping
- Complete Inspections

### Pressure Boundary

#### Welding:

- N285 (Hold 7 Certificate of Authorizations)
- B51

### Class 1 Storage Capabilities:

- 456 m<sup>2</sup> (5000 ft<sup>2</sup>). Can manage pipe and structural members up to 2.1m (84") diameter and length of 18.2m (60ft)

### Certifications

- ISO 9001 :2015
- CWB
- ASME

### Welding Capabilities

- SMA
- Submerged Arc
- GTAW
- MIG
- FCAW
- Tip Tig

### Materials

- Carbon Steel
- Stainless Steel
- Chrome
- Titanium
- Nickel Alloys

### Capabilities

- Pipe Spools
- Pipe Supports
- Small Vessels
- Material Supply / Upgrade
- Parts / Assemblies
- Modular Fabrication
- Rack Mounted Process Piping

Indoor Fabrication Floor Space  
1,672m<sup>2</sup> (18,000ft<sup>2</sup>)

### Mobile A-Frame Gantry Cranes:

One - 5 Tonne  
Two - 3 Tonne
